

## Report on the Firm's System of Quality Control

December 21, 2018

To the Partners of Bailey, Hodshire & Company, P.C.  
and the Peer Review Committee of the Michigan Association of Certified Public Accountants

We have reviewed the system of quality control for the accounting and auditing practice of Bailey, Hodshire & Company, P.C. (the firm) in effect for the year ended June 30, 2018. Our peer review was conducted in accordance with the Standards for Performing and Reporting on Peer Reviews established by the Peer Review Board of the American Institute of Certified Public Accountants (Standards).

A summary of the nature, objectives, scope, limitations of, and the procedures performed in a System Review as described in the Standards may be found at [www.aicpa.org/prsummary](http://www.aicpa.org/prsummary). The summary also includes an explanation of how engagements identified as not performed or reported in conformity with applicable professional standards, if any, are evaluated by a peer reviewer to determine a peer review rating.

### Firm's Responsibility

The firm is responsible for designing a system of quality control and complying with it to provide the firm with reasonable assurance of performing and reporting in conformity with applicable professional standards in all material respects. The firm is also responsible for evaluating actions to promptly remediate engagements deemed as not performed or reported in conformity with professional standards, when appropriate, and for remediating weaknesses in its system of quality control, if any.

### Peer Reviewer's Responsibility

Our responsibility is to express an opinion on the design of the system of quality control and the firm's compliance therewith based on our review.

### Required Selections and Considerations

Engagements selected for review included an engagement performed under *Government Auditing Standards*, including a compliance audit under the Single Audit Act.

As a part of our peer review, we considered reviews by regulatory entities as communicated by the firm, if applicable, in determining the nature and extent of our procedures.

### Deficiency Identified in the Firm's System of Quality Control

We noted the following deficiency during our review:

The firm's quality control policies and procedures related to engagement performance include the use of comprehensive and appropriately designed third-party practice aids for its audit engagements, including compliance audits under the Single Audit Act. During our review, we noted that while these practice aids were used, some elements of documentation were not completed correctly. As a result, certain elements of compliance auditing were either not adequately performed or documented. These included areas of compliance audit risk assessment, single audit tests of controls, and single audit tests of compliance for the engagement's major program and contributed to an audit engagement performed under *Government Auditing Standards* that did not conform to professional standards in all material respects.

### Opinion

In our opinion, except for the deficiency previously described, the system of quality control for the accounting and auditing practice of Bailey, Hodshire & Company, P.C. in effect for the year ended June 30, 2018, has been suitably designed and complied with to provide the firm with reasonable assurance of performing and reporting in conformity with applicable professional standards in all material respects. Firms can receive a rating of *pass*, *pass with deficiency(ies)* or *fail*. Bailey, Hodshire & Company, P.C. has received a peer review rating of *pass with deficiency*.
